Portfolio

Education

Chhatrapati Shahu Ji Maharaj University

Bachelor of Technology in Computer Science and Engineering,

Nov 2020 – June 2024

Kanpur, India

Experience

Web Developer Intern

May 2023 – June 2023

[CodeAlpha](#)

Remote

- Gained proficiency in writing clean, efficient code and improved code quality through effective coding practices.
- During my internship, I focused on improving User Experience (UX) design, prioritizing usability and accessibility of a website, including its navigation, interaction and content.
- After completing my internship, I have acquired valuable experience and skills that will assist me in pursuing a career in web development.

Teaching Assistant Intern

Dec 2022 – Apr 2023

[Coding Ninjas](#)

Remote

- Solved 700+ doubts with an average rating of 4.86 on a scale of 5.
- Took doubt sessions through call and chat.
- Debugged codes .
- Helped students in their assignments & various projects

Projects

Job Portal / MongoDB, Express.js, React.js, Node.js

[Project Link](#) | [GitHub](#)

- Developed a full-stack job portal using MERN stack (MongoDB, Express.js, React, Node.js) for efficient job seeking and recruitment.
- Implemented functionalities like user authentication (Firebase), job search with filtering, application submission, and recruiter dashboard for job management.
- Designed a responsive web application using React and Tailwind CSS to ensure optimal user experience across all devices.

BuyBusy / React.js

[Project Link](#) | [GitHub](#)

- Developed a user-friendly simple e-commerce website using ReactJS, ContextAPI, and react-router-dom, managing user interaction, product display, and cart functionalities.
- Integrated Firebase for secure sign-up, sign-out, storage of user accounts, shopping carts, and order history, ensuring data persistence across sessions.
- Implemented dynamic features like user registration, login, cart management (add/remove, adjust quantity), and order processing.

Skills

Languages: C++, Java, HTML, CSS, JavaScript

Frameworks: Express.js, Node.js, Bootstrap

Libraries: React.js

Databases: MongoDB, SQL

Tools: Git, GitHub

Coursework: OOPs, Data Structure and Algorithms, DBMS, Operating System

Soft Skills: Written and Verbal Communication, Problem Solving, Motivated, Adapting New Technologies

Honors and Awards

- Secured 1st College Rank and achieved an All India Rank of 5968 in **CodeKaze 2023**.
- 3* Star rated at Codechef , Profile Link: [xp27anujkumar](#).
- Secured a Global Rank of 4804 in Google Kickstart 2022 Round G : [Certificate Link](#)
- Achieved a prestigious **5-star** rating in **Problem Solving** on **HackerRank**. Profile Link : [techycode](#)
- Solved over **600+** DSA problems on top sites such as **GeeksForGeeks** , **Codechef** , **Codestudio**, **HackerRank**.
