

# ANUJ KUMAR

Final year B.Tech CSE

[Linkedin](#) | +91 9506139825 | [anujkumar.careers@gmail.com](mailto:anujkumar.careers@gmail.com) | [GitHub](#) | [Portfolio](#)

## EDUCATION

Chhatrapati Shahu Ji Maharaj University  
Bachelor of Technology, Computer Science

Kanpur, India  
November 2020 - May 2024

## EXPERIENCE

### Coding Ninjas

Remote

#### [Teaching Assistant Intern](#)

Dec 2022 - Apr 2023

- Solved 700+ doubts with an average rating of 4.86 on a scale of 5.
- Took doubt sessions through call and chat.
- Debugged codes .
- Helped students in their assignments & various projects

### CodeAlpha

Remote

#### [Frontend Developer Intern](#)

May 2023 - May 2023

- During my internship, I focused on improving User Experience (UX) design, prioritizing usability and accessibility of a website, including its navigation, interaction and content.
- As an intern in a web development or design company, I had the opportunity to work on real-world projects and gain experience in building websites and web applications.
- After completing my internship, I have acquired valuable experience and skills that will assist me in pursuing a career in web development.

## PROJECTS

### JobPortal

[Project Link](#) | [GitHub](#)

- Developed a full-stack job portal using MERN stack (MongoDB, Express.js, React, Node.js) for efficient job seeking and recruitment.
- Implemented functionalities like user authentication (Firebase), job search with filtering, application submission, and recruiter dashboard for job management.
- Designed a responsive web application using React and Tailwind CSS to ensure optimal user experience across all devices.

### BuyBusy

[Project Link](#) | [GitHub](#)

- Developed a user-friendly simple e-commerce website using ReactJS, ContextAPI, and react-router-dom, managing user interaction, product display, and cart functionalities.
- Integrated Firebase for secure sign-up, sign-out, storage of user accounts, shopping carts, and order history, ensuring data persistence across sessions.
- Implemented dynamic features like user registration, login, cart management (add/remove, adjust quantity), and order processing.

## ACHIEVEMENTS

- Earn a skill badge on Coding Ninjas in C++, OOPS, DSA and problem solving .
- 3\* Star rated at Codechef , Profile Link: [xp27anujkumar](#)
- 5 star in problem solving at hacker rank. Profile Link : [techycode](#)
- Global Rank 403 in Codechef Starter 80 out of 15k+ participants.
- Global Rank 58 in Codechef December Long challenge out of 17k+ participants.
- Secured a Global Rank of 4804 in Google Kickstart 2022 Round G : [Certificate Link](#)
- Solved Over 1000 DSA problems on top sites such as Codeforces, Codechef, Leetcode, HackerRank and GeeksforGeeks

## SKILLS

**Languages:** C++, Java, HTML, CSS, Javascript, Python(Familiar)

**Technologies:** JDBC, Java EE, Hibernate, Spring, Bootstrap, Tailwind CSS, ReactJS, NodeJS, SQL

**Tools:** Git & GitHub, VS Code

**CourseWork:** Object Oriented Programming, Data Structures and algorithms, Software Engineering , DBMS , Operating systems

## ADDITIONAL

**Cp platforms:** [Codechef](#) | [Codeforces](#) | [Hackerrank](#) | [GFG](#)
